3 Summary	2
4 Source Provenance	2
5 Open-Practice Evidence	3
6 Repository Links	5
7 Preregistration And Registry Links	6

1 Scope

This report summarizes offline transparency evidence extracted from source documents. It is an evidence map for human review, not an automated quality score. No network calls, LLM calls, or direct `metacheck` package dependency are used in this v1 category.

2 Load Outputs

```
repo_root <- normalizePath("../", winslash = "/", mustWork = TRUE)
study_id <- Sys.getenv("FORENSICS_STUDY_ID", "lungtime")
report_dir <- file.path(repo_root, "reports", "transparency", study_id)
